

Brain & Neuro Support

Facing Alzheimer's, dementia, Parkinson's, a stroke, MS, or a brain injury — for yourself or a loved one? National organizations offer free helplines, support groups, and guidance. Below are trusted starting points. Tick the box once you've contacted each one.

⚠ BEFORE YOU START

These conditions affect the whole family. The organizations below offer free 24/7 helplines, care planning, and support groups — you don't have to figure it out alone. Many also help you find financial aid.

1 Memory Loss, Alzheimer's & Dementia

Free 24/7 helplines and care navigation for families facing memory loss.

☐ Alzheimer's Association

Free 24/7 helpline, care planning, and local support groups for all dementias.

→ www.alz.org/help-support 1-800-272-3900

☐ Eldercare Locator

Connects families to local services, respite care, and support for older adults.

→ eldercare.acl.gov 1-800-677-1110

2 Parkinson's, MS & Other Conditions

Disease-specific nonprofits with free helplines, education, and local resources.

☐ Parkinson's Foundation Helpline

Free help understanding Parkinson's, treatment, and local resources.

→ www.parkinson.org/resources-support 1-800-473-4636

☐ National MS Society

Free support, programs, and financial-help navigation for multiple sclerosis.

→ www.nationalmssociety.org 1-800-344-4867

☐ Brain Injury Association

Free information and a national help line for traumatic brain injury (TBI).

→ www.biausa.org 1-800-444-6443

3 Stroke & Recovery

Support for stroke survivors and their caregivers.

☐ American Stroke Association

Free survivor and caregiver support, recovery resources, and a warmline.

→ www.stroke.org 1-888-478-7653

4 Find Research Studies & Trials

Clinical trials can offer access to new treatments, often at no cost.

☐ **ClinicalTrials.gov**

Search federally listed studies for brain and neurological conditions.

→ clinicaltrials.gov

☐ **NIH — Brain Conditions Info**

Trusted, plain-language information on neurological conditions from the National Institutes of Health.

→ www.ninds.nih.gov/health-information

⚠ WATCH OUT FOR

Be cautious of products promising to “reverse” dementia or cure brain conditions with supplements or special programs — these aren’t proven. Trust the established nonprofits and .gov sources above.

★ A TIP THAT HELPS

Call the disease-specific helpline early — even right after a diagnosis. They can explain what to expect, connect you with support groups, and point you to financial help you may not know exists.

NEED HELP WHERE YOU LIVE?

Need local brain-health support?

This guide covers national organizations. For local support groups, specialists, respite care, and caregiver help near you, use the personalized AI search or ask in the Questions area, and we’ll help you find them.

MY NOTES — WHO I CALLED, WHEN, AND WHAT THEY SAID
